“ *Michael and I have many memories. He was a sweet baby that grew up to be a talented young man. He loved rapping and created some beautiful and unusual artwork. He will always be a living memory for me as I always see his beautiful smile in my mind. He liked helping grandma and was exploring different areas that he thought would be safe for me to move to. While I miss him I know he is safe with his Uncles and the angles watching over him. I will always love you Michael! Love Grandma*
